Learning Management System (LMS)

Counselling Process

Brief describe the provision in LMS to be used by HEI :-

The Learning Management System (LMS) serves as the primary gateway for delivering online programmes. It must be a comprehensive platform capable of hosting e-Learning Material (e-LM), facilitating student-teacher interaction, and managing the entire student lifecycle from registration to certification. Key Provisions: 1. Content Management: Hosting four-quadrant e-content (video, text, self-assessment, and discussion forums). 2. Interactive Tools: Real-time and asynchronous communication tools including discussion boards and live sessions. 3. Delivery Tracking: Monitoring progress and completion rates for every learner at a granular level. 4. Security: Robust data encryption and privacy protocols to Protocol to protect learner information.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :- <https://cdoelms.manuu.edu.in>

Assessment mechanism	LMS supports Continuous Assessment (Formative) via quizzes, assignments, and peer reviews, and End-Semester Examination (Summative) through computer-based proctored exams. It includes automated grading and plagiarism detection.
Identified technological interface and interoperability	The system complies with SCORM/LTI standards to ensure interoperability. It provides a user-friendly interface accessible via web browsers and mobile applications (iOS/Android).
Learner's Authentication Requirements	Learner's Authentication Requirements Multi-factor authentication (MFA) including Aadhaar-based authentication (where applicable) or OTP or biometric/facial recognition during high-stakes activities like examinations to verify identity.
Learner Registration - through a web application	A dedicated web application integrated with the LMS for seamless registration, document upload, and automated verification of eligibility criteria.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	Uses Learning Analytics to track time spent on modules, video completion rates, and forum participation. Provides automated reporting for "at-risk" students to faculty members.
Payment Gateway –using Digital Payment system	Integrated with Digital Payment Systems (UPI, Net Banking, Credit/Debit cards) through secure, PCI-DSS compliant gateways for fee collection and automated receipt generation.
Tracking the delivery of a Course or programme	Dashboards for both learners and administrators to monitor the delivery of the 4 quadrants of e-content, ensuring all syllabus components are accessed within the academic calendar.
Technical Know-how or Skills Requirements	Requires basic digital literacy (navigating web pages, uploading files). The HEI provides orientation modules and a 24/7 technical helpdesk for learners.

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

The university has a dedicated Centre for Information Technology (CIT) that caters to the ICT requirements of the University with the objective of providing basic computing facilities to the students and teachers. During the past few years, the center has evolved from a very small computing facility to a critical central facility of the University. Keeping its ethos of refurbishing education and research with modernization, the Maulana Azad National Urdu University has been

the Center administers a 1-Gbps link to National Knowledge Network. CIT is making vigorous efforts to fully automate the university's academic and administrative functioning by cherishing modern ICT tools. Modules for Students Management System, Examinations Systems, Online Fee Management System Course Curriculum Management are already functional. Work on developing other important modules including Finance, File Tracking system, etc. under comprehensive Integrated University Management Software (IUMS) is underway. The modules are expected to be launched in near future.
